

Central Baptists To Start Revival Services Sunday

A two weeks' series of revival services will begin at Central Baptist church Sunday, with Rev. Thomas S. Potts, of San Antonio, Tex., assisting the pastor, Dr. Ben Cox, who will have charge of the revival music.

Dr. Potts was at one time pastor of the Central Baptist church for 14 years. During the simultaneous revival campaign he has been assisting Rev. H. P. Hurt at the Union Avenue Baptist church. The Central male quartet will render appropriate selections each night. The revival at Central church was postponed in order to secure the services of Dr. Potts as an evangelist.

"Use a Good Tube"

Inner tubes, you will admit, are air containers. If the tube has a porous spot the air gradually leaks out. tire becomes under-inflated, side walls are injured—and some day it "blows." Use a good tube—the best you can get.

We Highly Recommend Goodyear Heavy Tourist Tubes

This is a 5-ply tube—in other words, five layers of rubber vulcanized into one. Thus, obviously, should one layer contain a sand hole it is rendered harmless by the other four. Result: a tube that will not leak until punctured. Such a tube, also being heavy-

er, will not "pinch," nor does it puncture easily. Saves many patches and therefore several dollars a year, to say nothing of the longer service. We advise their use, especially as they only cost something like 60 cents to 75 cents more on the average.

Expert Truck Tire Service

This department is in charge of a truck tire expert, who knows the various types of tires best suited to the work assigned your truck. Besides a complete stock of Goodyear's Big Pneumatic Cords and Goodyear's Solid Tires, we have the big hydraulic press for applying the solids, day or night.
